The fact that the Collector has made full settlement with the Town for any taxes does not effect any legal action that may be taken for the collection of same.

Any delinquent taxes should be paid at once to avoid such action being taken.

FIRE CHIEF'S REPORT

Feb. 5th, 1943

As reported to the Budget Committee the sills in the Fire House have rotted out and a danger exists not only to the personnel of the Dept. but to about \$10,000.00 worth of apparatus, also the biggest expense to the town is the replacement of Hose for the want of drying facilities. We can only dry seven lengths of hose at one time and it takes at least three days to dry hose thoroughly, also hose should be cleaned and scrubbed to get the grease, soil, etc. that causes the hose to rot. I mention these conditions so that the people may know them.

At the Budget Committee meeting I mentioned the idea of a building to take care of all town equipment — fire trucks, tractor, school bus, etc. — and have a man stay and take care of said equipment and the town would save money and other a lot of headaches. We know this cannot be accomplished this year, but I and the Budget Committee do think the town should raise a sum each year, so that when the war is over, this can be accomplished with not too much of an expense at one time.

The Fire Dept. met once each month to go over the month's doings and to further fire protection. We have a supper for which each man pays his part. The Department wishes to thank Mr. Durien for the hours he spent with us showing moving pictures pertaining to Fire Protection. Another of our townsmen has donated the price of about \$400.00 for hose and an amount so that we could get two aux. pumps instead of one. The Dept. is willing at all times to assist the town and people in any emergency.

REPORT OF SUPERINTENDENT OF SCHOOLS

EDUCATION FOR THE WAR EFFORT

The Industrial Art Classes this year are working in a rotating system, in which each student may try his skill and adaptability at metal, electrical, lathe, mechanical and aviation work.

In the regular shop classes there are sixteen High School boys taking the course and twenty-six in the seventh and eighth grades.

Due to the suggestion of the United States Army there has been a pre-induction course put into the High School. This is made up of all the Juniors and Seniors of the school. They start out in the fundamentals of shop work and progress as fast as possible into more difficult fields of work. Courses in wood work, machines electrical, metal and pre-flight aviation will be taught. There are fifteen boys taking this work.

There are forty-five students enrolled in the HOME ECONOMICS DEPARTMENT. About sixty-five boys and girls are being served a hot meal each day by the Department. A large amount of surplus food has been received. The students are contributing to Red Cross sewing this year as usual. A War course in adult nutrition is to be made available in April to all those who wish to attend.

The School Music program has been extended this year to include a large percentage of the High School pupils.

Instrumental study among younger children (age 9-12) has been fostered, as this makes for better understanding and performance of music by the time these children reach High School. This year lessons are being given to 37 children.

Vocal Music, required through the first eight grades, has attracted many High School pupils this year. The Glee Club, a selected group of 32 singers, will present an operetta, "Sunbonnet Girl," late in February.

Since new courses have been added to the High School curriculum, boys and girls will have their Music in separate classes after March first. A girls' string ensemble will be added to the musical organizations already active, while the boys will have their own small "band" for marches and dance music.

REPAIRS

The Boiler Inspector has recommended, "The feed line which enters the rear section of the H. S. boiler be relocated to enter the return line a few feet from the boiler."

Owing to the popularity of the Rink back of the High School an extension of the Street Lighting system is indicated. \$100 of the money left from the winter sport fund could be used to extend the street lights. For various reasons including additional load and meter expense this extension should not be added to the lights inside the building.

Some well needed painting has been done at the High School the past year. While a new electric stove is needed at the High School we are putting it off as long as possible.

THE WAR AND THE SCHOOLS

IT IS ESSENTIAL TO WINNING THE WAR ITSELF AND TO THE PRESERVATION OF DEMOCRACY FOR WHICH WE ARE FIGHTING THAT SCHOOLS BE KEPT OPEN AND THE CHILDREN PROVIDED WITH FACILITIES TO THIS END.

We have many young men serving in the Army and Navy with distinction. One Rangeley High School graduate or more has paid the SUPREME SACRIFICE FOR HIS COUNTRY.

The War will be won and Hitler will not close our Schools, our churches or our frontiers.

The War Manpower Commission has just said that the best preparation for the Army is for one to complete his or her High School Course. Let no one lose his life for lack of the proper training.

The married men may soon be away at war and while they are away they will not want to worry about the proper education of their children.

FINANCE

This year the average of School rates in the State is .014. We see that Rangeley with a School rate of .0086 is well below the State and County Average.

Rangeley Plantation, Salem, Coplin, and Temple are the only Towns who pay less for Schools than Rangeley in this county. The rate for schools is almost double in some Towns in the county. Look at the Table.

The past year surrounding Towns have lessened the Rangeley Tax \$2,373.62 by reason of Tuition. It is assumed they abandoned rural

Schools for their children in order to have grade Schools, Manual Training, Home Economics and Music.

Maine has lost the services of 1,148 trained and experienced teachers the past year by reason of entry into the armed forces, War industries, or to get married.

In November 1942, there were 121 teaching position vacancies in Maine, 42 in rural schools and 28 in grade schools. Coburn Gore was not able to get any teacher at all until after Christmas.

The Profession wonders when Maine will learn the lesson of England — that the work of the trained teacher is too valuable in preparing children for War and for peace, in reducing juvenile delinquency, etc., to allow teachers to enter other activities.

In 1930 \$23,481.65 was appropriated for Schools. In 1942 \$18,493.10 was appropriated. Compare the drop and difference as well as the otherwise gain.

School teachers have to eat and the Public demands that they be presentable in appearance. They have to take on other work during the summer to live through the year. They are asked to ration Gasoline, Sugar, Food, and sundry other articles, as well as to do cheerfully other things for the various other branches of the State and Federal Government.

Now that we are in a period of higher prices, inflated salaries and heavy labor demands, many teachers are taking advantage of the situation to leave teaching positions that never paid them decent wages.

Our supply of local substitute teachers has reached the danger point.

The Oquossoc Schools have been closed, White School, Quimby School, Kennebago School, Lower Dallas School, Rangeley Plantation School. The argument has been advanced each time that with a central school each teacher could have a separate grade and more time for each pupil. No parent wants to have his or her child retarded a grade or two for want of proper instruction.

We have gained the Haines family, the Campbell family, the Steward family, the Tyler family, and on the other hand we have lost a few pupils. The gain has about equaled the loss. The average loss per teacher has amounted to about two pupils per teacher.

By their attitude the citizens apparently want a modern School system. In order to maintain that system the following appropriations are necessary. Don't forget any money spent for Town of Rangeley Taxes can be deducted from your Federal Income Tax.

The following appropriations are recommended for Town Meeting.

ARTHUR IRISH,

Superintendent of Schools.

REPORT OF PRINCIPAL OF HIGH SCHOOL

To the Citizens of Rangeley:

The total enrollment in High School for the fall term was 96 and the average attendance 87.83. There were 15 seniors, 23 juniors, 30 sophomores, 26 freshmen, and 2 postgraduates. Of this number, there are 63 girls and 33 boys.

Four boys have left school to enter the Armed Forces. Certificates of Graduation are awarded seniors who leave for this purpose. Diplomas can be given, only by permission of the State Department, after the boys have taken approved courses while in training.

There have been two changes in teachers this year. Miss Rita Churchill, a graduate of Farmington State Normal School, has Miss Chute's position in the Home Economics department and Miss Madeleine Hinkley, a graduate of Colby College, has Miss Dennett's position as teacher of French, freshman English, and civics.

By order of the War Department and State Department of Education a pre-induction course, which consists of manual arts, science, and mathematics, is now given to boys of the senior and junior classes, and physical education to all boys and girls in school. These courses have

to be given in addition to the regular work and all teachers have some part as instructors.

Due to transportation difficulties the athletic program has had to be curtailed, even though authorities tell us that athletics should be stressed more. This can be done in part through physical education, but for best results, should be given by a trained instructor.

Dr. J. W. Studebaker, United States Commissioner of Education, says: "People must realize clearly that this country is engaged in a life-or-death struggle for existence of the American way of life and that time has passed when temporizing and compromising in connection with the war effort can be tolerated. We cannot have business as usual in education. The schools, as well as the boys at the front, must make an all-out effort to win the war.

"The development of strength and endurance on the part of all high school and college youth is one of the definite and vitally important things that the schools can do and are expected to do."

I wish to thank you for your fine support, but would remind you that teachers' duties are increasing and that good out-of-school training of boys and girls is essential for their success in school.

Respectfully submitted,

E. B. TILTON, Principal.

SCHOOL STATISTICS

IMPORTANT NOTICE

This year the average of school rates is .01402. Towns having a rate for school maintenance equal to or exceeding .01402 will share in equalization in December 1943, provided the basic measure of .012 on the state assessed valuation of the town fails to produce the minimum educational program as provided in our State Equalization Law.

North Franklin County Nursing Service

To the Citizens of the Town of Rangeley:

I submit the report of the North Franklin County Nursing Service from January 1, 1942 to December 31, 1942.

Four home and one office visits were made to prenatal cases. General health habits and plans were discussed. Five visits were made to the home of infants and two to preschool children. Health habits were discussed with the parents. Eight visits were made to adults. Health was discussed, and in most instances, individuals were urged to consult their physicians. Eleven home and four office visits were made in follow-up of crippled children's cases and clinic instructions were received. In four visits no one was found at home. Twelve interviews were held with other workers in reference to the work. Nine visits were made to the home in follow-up of Tuberculosis.

This fall the nurse's inspections were carried out in the school. Three hundred twenty-five children were seen, records were completed and reports sent to the parents. Defects were discussed and the parents were urged to consult doctors, dentists, or oculists. Thirty-three conferences were held with the teachers in reference to corrections and two staff meetings were held to plan for corrections. The school has developed an invaluable hot lunch program. A considerable number of the children bring lunches and such a program would be most helpful.

The nurse assisted the District Health Officer in throat inspection and in immunization clinics. Forty-eight were vaccinated against smallpox and fifty-six were inoculated against diphtheria.

The dental clinics at the hospital have been postponed for the duration. The Hospital, in conjunction with the State Bureau of Health, maintains the facilities of a chest clinic to which family doctors may direct patients who manifest symptoms of tuberculosis or who are contacts of actual cases. In a similar manner an orthopedic clinic is held. Children or adults who manifest signs of deforming conditions may be seen by an orthopedic surgeon upon request of the family doctor.

Each year an educational program is sponsored by the Maine Public Health Association during the month of April. This year we

received educational literature, posters, and movie films. These were distributed and shown in Rangeley. This material pertains to the values of the Early Diagnosis of Tuberculosis and its treatment and cure.

Again, this year, the North and South Franklin County Nursing Services were allotted space at the County Fair grounds. The most recent films were shown in reference to Tuberculosis, Dental care, nutrition and syphilis. Literature pertaining to all phases of health was distributed upon request. Greater interest was shown in the films this year.

In summary, the Nursing Service has been affected by the war effort in that clinic facilities have been lessened, and, due to tire conservation, visits have been lessened. Yet the need for public health education is ever increasing. With this thought in mind, the Nursing Service will strive to reach and inform the public in the best possible healthful living. This is the role it plays toward fortifying the Home Front while our right for such liberty is being fought at the Battle Front.

The Nurse wishes to take this opportunity to express her appreciation to all citizens who have participated in the health activities.

Respectfully submitted,

NORTH FRANKLIN COUNTY NURSING SERVICE,

By RUBY G. BENNETT, R. N.,

Public Health Nurse.
